MarminStone HELEXPO

Special Tribute to Marble and Natural Stone

A distinct thematic pillar of Infacoma, dedicated to marble and natural stone, showcasing Greek and international production, contemporary applications, and the sector's know-how and innovation.

Thematic Pillars:

Marble Greece: Tradition and Outlook
The timeless value of Greek marble and its prospects in an evolving global market.

Greek Marble as a Global Brand
The identity, international outreach and promotion strategy of Greek marble as a high value-added product.

Contemporary Applications
Innovative uses of marble in architecture, design, technology and sustainable development.

SPECIAL TRIBUTE

Heat & Comfort HELEXPO

Energy Applications · Heating Systems · Cooling · Ventilation · Fireplaces · Stoves · Boilers · Plumbing

Infacoma is complemented by the **special tribute** under the distinctive title Heat & Comfort HELEXPO in Hall 16, which covers conventional forms of energy, their systems and applications.

Parallel Events & Networking

Infacoma is complemented by a programme that strengthens its professional character, the transfer of know-how and real added value for exhibitors and visitors.

- Information conferences and seminars: marble, sustainable building, energy performance of buildings, smart building applications, contemporary architectural trends and innovative applications of aluminium and metal structures
- Specialised workshops, company presentations and new technology showcases
- Thematic discussions and organised B2B meetings
- Hosted Buyers Programme: meetings with exhibitors and targeted contacts with international markets

CONFERENCES | WORKSHOPS | B2B NETWORKING | HOSTED BUYERS

Other Parallel Events

ENERGY HELEXPO

The event gains special momentum from running alongside **Forward Green** and **Renewable EnergyTech**:

A single platform for modern building, sustainable development, the energy transition and the technologies shaping the future of buildings and infrastructure.

Reasons to Participate

Infacoma 2027 comes at a time of strong recovery in the construction sector and serves as a reference point for the entire market.

- Direct exposure of products and services to a specialised trade audience
- Contact with construction companies, architects, hotels, investors and institutions
- Stronger international reach and export profile through targeted B2B activities
- Access to the markets of Greece and South-East Europe

Infacoma HELEXPO

Be part of the new era of INFACOMA

Secure your company’s participation in the construction industry’s most important gathering and showcase your products, services and innovative solutions to a specialised trade audience.
